Merry Christmas

Merry Christmas, Happy Holidays and Happy New Year!

From all of us at Archway Systems, we wish you and your families a very merry Christmas, joyous holidays and a wonderful new year. May the new year bring blessings on you and your families in all that you do! Thank you for being a loyal customer of Archway Systems. You are a blessing to us each and every year.

Report: New Classes at the Bentley Bash

We've added a number of new classes to the agenda for the upcoming Bentley Bash training in January! The annual **SoCal Bentley Bash 2020** is taking place at **Rio Hondo College in Whittier, CA** on Friday and Saturday, **January 10-11th, 2020!** We will have 3 lecture sessions on Friday morning, followed by 3 hands-on sessions Friday afternoon, Saturday morning and Saturday afternoon.

Along with our MicroStation, OpenRoads Designer, OpenBuildings, RAM and ContextCapture sessions, we've just added 2 hands-on workshops on **Water Modeling** with WaterGEMS/CAD and **Stormwater and Flood Modeling** with CivilStorm/SewerGEMS. We only get classes in water products every few years, so if you're interested, you don't want to miss out signing up for these classes this year!

We've also added an **Ask the Experts panel on Friday during lunch** which will include Archway's own Mike Lazear, plus Bentley's Same Hendrick and Samir Haque. Come ready with your **MicroStation questions** to ask the experts and pick their brains about the product!

On Friday, we've got **Tom Kruse, an OpenSite Designer expert**, giving the 11:00am lecture on OpenSite Designer and we've added both lecture and hands-on workshops with **MicroStation expert Samir Haque**.

With all of these new classes, you'll want to take a look and get registered for the SoCal Bentley Bash!

Come learn about the latest in **MicroStation CONNECT**, OpenRoads Designer,

OpenRoads ConceptStation, **ContextCapture**, RAM Structural System and more! **Santanu Das**, Senior VP at Bentley, joins us again this year as the keynote speaker on Saturday at lunch (with your chance to win some exciting door prizes!)

And the best part is that it is **no cost to you!** Join us for one session, or all of them - it is up to you! Network with other local Bentley users and learn about the best that Bentley has to offer!

Online registration is open! Online registration will close Monday, January 6th, 2020. **Sign up early to secure your spot in the lectures and workshops you want!**

Buy Software Now and Save 30%

You probably know that computer software purchased for your business can be deducted as an expense on your income tax. As an example, a business pays the IRS 21% flat rate on company profits. California charges an additional 8.84%. So a company making a profit in California will pay just under 30% in income taxes.

If you are planning any purchases of software in the next couple of months, you can save 30% right away by purchasing in December. If you would like a quote for any Bentley software, please let us know. If we get your order in the next week, we can get the transaction done so you can save that 30% in income tax.

ACCELERATE Civil Conference

The Bentley ACCELERATE Civil Conference is happening next **March 16-18, 2020** in **Orlando, FL**. This conference features OpenRoads, OpenBridge, OpenSite and OpenRail with more than 140 sessions.

Registration is open now and early bird registration is available until February 15, 2020 which saves you \$100 on conference registration! Sign up today to learn the latest in Civil from Bentley and see where their Civil programs are headed in the future. For more information about the conference, visit [Bentley's website](#).
