

# *Be Inspired Awards*

## 2015 Nomination Form

### **Category**

Select the category that best applies to your project. You may enter into only ONE category. To assist in selecting the best category for your project, please review the detailed category criteria and examples.

Innovation in Asset Performance

Innovation in Bridges

Innovation in Building

Innovation in Construction

Innovation in Government

Innovation in Land Development

Innovation in Megaprojects

Innovation in Mining

Innovation in Offshore

Innovation in Power Generation

Innovation in Process Manufacturing

Innovation in Project Delivery

Innovation in Rail and Transit

Innovation in Roads

Innovation in Structures

Innovation in Utilities and Communications

Innovation in Water Treatment Plants

Innovation in Water Network Analysis

### **Lead Applicant**

Please provide your contact details.

*Title*

*First Name*

*Last Name*

*Address*

*City*

*Province / State*

*Postal Code*

*Phone Number*

*Organization Name*

*Job Title*

*Email*

*Alternate/Personal Email*

# Be Inspired Awards

2015 Nomination Form

**Are you submitting this application on behalf of another organization?**

Yes

No

*Organization Responsible for Project*

**If yes, which organization?**

*Project Type*

**Who is the project client?**

*Project Location: City*

**Please list your BP number or Account Manager, if known:**

*Project Location: State/Province*

**Please list any Bentley colleague(s) or Channel Partner(s) who assisted you with your submission:**

*Project Location: Country*

**Please type each item as you would like it published in the 2015 Infrastructure Yearbook**

*Project Name*

*Project Cost*

Please select the most relevant option.

Actual

Estimated

Please enter the actual or estimated project cost.

*Project Owner*

*Currency Type*

# Be Inspired Awards

2015 Nomination Form

## Which phase is your project currently in?

- Design
- Under Construction
- Completed and Operational
- Other (please specify)

## Bentley Brands Used

Please select all Bentley brands used in your Be Inspired Awards submission: Choose at least 1 option.

- |                                      |                                 |
|--------------------------------------|---------------------------------|
| Amulet                               | MAXSURF                         |
| AECOSim                              | MicroStation                    |
| AssetWise                            | MineCycle                       |
| AutoPIPE                             | MOSES                           |
| AutoPLANT                            | MX                              |
| Bentley Coax                         | Navigator                       |
| Bentley Communications PowerView     | OpenPlant                       |
| Bentley Fiber                        | OpenRoads                       |
| Bentley Navigator                    | OpenUtilities                   |
| Bentley Map                          | Optram                          |
| Bentley Rail                         | Pointools                       |
| Bentley Raceway and Cable Management | ProjectWise                     |
| BridgeMaster                         | ProjectWise Work Package Server |
| Comms                                | Promis•e                        |
| ConstructSim                         | ProStructures                   |
| Descartes                            | RAM                             |
| eB                                   | RM                              |
| elcoCAD                              | SACS                            |
| Exor                                 | sisNET                          |
| GEOPAK                               | SITEOPS                         |
| gINT                                 | Smart3DCapture                  |
| Haestad                              | speedikon                       |
| Hevacomp                             | STAAD                           |
| InRoads                              | SUPERLOAD                       |
| InspectTech                          | topoGRAPH                       |
| LARS                                 | Other: please specify           |
| LEAP                                 |                                 |

## Bentley Mobile Apps Used

Please select all Bentley Mobile Apps used in your Be Inspired Awards submission: Choose at least 1 option.

- Bentley LEARN App
- Bentley Map Mobile
- Field Supervisor
- InspectTech Collector Mobile
- Navigator Mobile
- Navigator Pano Review
- ProjectWise Explorer Mobile
- ProjectWise WorkSite
- Structural Synchronizer View
- None of the above

## Please provide details describing the following aspects of your project:

For any fields that do not apply, mark with an "N/A".

*What is the scope of the project?*

*What are the business goals of the project?*

# *Be Inspired Awards* 2015 Nomination Form

*What are the unique engineering challenges of the project?*

*How will the project benefit society?*

*How did information technology help you meet the challenges of the project?*

**Describe how Bentley software and solutions enabled you and your organization to accomplish the following:**

For any fields that do not apply, mark with an "N/A".

*How did you increase project collaboration?*

*How did you employ information mobility to move information among disciplines, between the engineering office and the field, and through various phases of the project or asset lifecycle?*

*How did you increase return on investment (ROI)?*

*How did the project address any environment issues?*

*How did you reduce time of project delivery?*

# Be Inspired Awards

2015 Nomination Form

*How did you reduce costs of project delivery?*

**Which of the following innovations (if any) did you employ in the execution of your project?**

- |                             |                            |
|-----------------------------|----------------------------|
| i-models                    | Design Modeling            |
| Construction Work Packaging | Analytical Modeling        |
| Hybrid modeling             | Construction Modeling      |
| Hypermodeling               | Asset Performance Modeling |
| Optioneering                | Reality Modeling           |
| Geo-coordination            | None of the Above          |
| Point-cloud Streaming       |                            |

*How did you reduce operation costs?*

### **Quotation**

Please provide a quotation about the benefits derived from the use of Bentley software/services on this project. Note: These quotations will be used in Bentley marketing programs, including press releases. Example: "Bentley's commitment to providing the tools necessary for 21st Century design means that Sheppard Robson's CAD data is effective and well-coordinated." Mike Bufalino, IT Director, Sheppard Robson.

*How did you reduce or manage risk?*

**May we use your name with this quote?**

- Yes  
No

*Please type your name as you would like it displayed with the quote:*

*How did you address regulatory compliance issues?*

### **Required Images**

To complete your 2015 Be Inspired Award submission, please provide us with supporting image files that best represent your project. The independent jury will review these images in conjunction with your written entry. Your animations, videos, image files and models will be used in Be Inspired Awards marketing and promotion, as agreed to in the Participation Agreement that authorizes Bentley to use the materials supplied.

*How did you enhance safety?*
