

## March 2019 Archway Newsletter

### The Year in Infrastructure Awards Submissions Now Open!

Want to win a free trip to Singapore to present your company's project using Bentley software? Submit your nomination now! There are 18 categories to choose from this year, and 3 finalists from each category will be chosen to present their project in Singapore at the annual Year in Infrastructure Conference October 21-24, 2019.

Last year, Anil Verma was a finalist in the Buildings and Campuses category, coming in 2nd place. Want to see the other projects from 2018 including Anil Verma's? [Check out the 2018 Year in Infrastructure book.](#)

**Ready to nominate your project this year?** Each finalist chosen from the nominations for each category will receive free travel and accommodations to Singapore for the conference in order to present their project. Also, every accepted nomination is published in the annual Year in Infrastructure book. There are a number of other PR benefits as well! Let's get your project submitted today! Email [tom@archwaysystems.com](mailto:tom@archwaysystems.com) if you are interested.

## Report: Interested in GeoTechnical Engineering?

Bentley Systems has developed and acquired some of the leading geotechnical software with innovative ways to acquire and use it including **Plaxis** and **Soil Vision**. There is so much you can do with gINT, and Bentley has just added more!

Plaxis is the leader in finite element modeling of underground facilities, and Soil Vision is the standard for slope deflection calculations. Add these two to gINT, the acknowledged leader in bore hole data management and strata modeling, and you have the leading geotechnical software. And, of course, MicroStation for 3D modeling, design and drafting. With these software added to Bentley's library, you can now have a full Digital Twin model of your underground facilities data.

Soil Vision and gINT are available via rental by month or quarter as well as purchase,

while Plaxis is only available as purchase. Bundles and ala carte. Even a special trade-up program. Call Archway if you have any questions or want to learn more about these newly acquired geotechnical software products!

For more information, check out [Bentley's website](#) and [Soil Vision's website](#).

## CONNECT Licensing

CONNECT Licensing is the new way to license software with Bentley. It has some great advantages that users have been looking forward to for years! This includes new features such as limiting the number of licenses and more security.

With CONNECT Licensing, your company can also qualify for discounts on term licenses, perpetual licenses purchase, and SELECT renewals. You can get a 10% discount just by having 100% of your users registered and 100% of your computers with CONNECT Edition software installed. After that, there are additional volume discounts that you can up to 25% off.

## Summer Bentley Bash 2019 - May 21-22, 2019

The next SoCal Bentley Bash is coming up [May 21-22, 2019](#) at the AEC Next/SPAR 3D Conference at the Anaheim Convention Center in Anaheim, CA. We will have 1-hour lecture sessions and 3-hour hands-on workshops. Come to the Bash and get into the Exhibit Hall, Keynote Presentations, and Product Previews for free!

The topics this year will include AEC/SPAR specific lectures, OpenSite Designer, OpenBuildings, and more! Sign up today to be the first to know when registration opens!
