### 2021 Going Digital Awards in Infrastructure - Nominations Now Open!

The 2021 Year in Infrastructure Going Digital Awards are here! This year, there are 19 different categories to choose from when submitting your project. Nominations are open until **May 21st!**

The recognition your company can earn from these awards is fantastic! Compete against projects from around the world using Bentley software. All nominees get their project published in the [Infrastructure Yearbook](#) which can be viewed online at anytime. If chosen as a finalist, you will be able to present your project at the Annual Year in Infrastructure Conference to a panel of judges. You will also be featured in the User Project section of Bentley's website along with many other opportunities. Winners will receive exclusive press releases and global recognition. This is not an opportunity you want to pass up on.

Check out this [Promo Video](#) for quick info about the competition and this [Submission Video](#) for help with how to submit your project. If you need help with your submission or how to make it stand out, let Archway help you! We have helped a number of customers over the years with their submissions and many have become finalists, and even a few winners!

## Report: ProjectWise Popularity Skyrockets During Pandemic

Suddenly more and more companies are implementing ProjectWise. We have seen a 300% increase in inquiries and proposals, just since the first of the year.

There are many reasons why moving to ProjectWise is a smart idea including:

- Better control of project documents
- Efficiencies that come from less time searching for documents
- Delta File Transfer for fast up and downloads because only the pieces that are changed are transferred from repository to user and back
- Automatically finding and attaching reference or xrefs when a file is opened
- Integration with popular software like MicroStation and AutoCAD
- Any file type is handled and managed

But one of the main reasons why moving to ProjectWise right now is a smart idea is a fall out of the pandemic - we can now operate remotely at a large cost savings of office space and travel time if we have the proper systems to support the remote operation. ProjectWise helps you and your employees access all of your files from pdfs to dgsn remotely and with real time changes.

Let us know if you would like more information on how ProjectWise can work for your company.

---

## Virtuoso Subscriptions

Need a Bentley software for a year at lowest cost? **Archway is now offering Bentley's Virtuoso subscriptions right from our website.**

Need an additional seat of MicroStation, OpenRoads, ContextCapture, WaterCAD or almost any Bentley software? **Get it quickly!** The cost for one year is just 40% of the perpetual license price and it comes with some direct hours of consulting or training called keys.

For example, Microstation is, at the time of publication, just \$2555 for the year (see website for current price), includes 3 keys and you can use MicroStation as much as you want. Go to <http://www.archwaysystems.com/products/bentley-software>. Find the software you need in the list and click Learn more & buy. Here you can read all about the product or choose your options and add it to your cart.

You will be redirected to the Virtuosity site (a Bentley company) to finish your payment. Once payment is complete, **you have your extra seat that day!**
